**The world won't maintain  
a reliable flow of energy  
without a reliable  
flow of scientists.**

Meeting the world's ever increasing energy demands will require more scientific breakthroughs than ever. And more scientists. That's why ExxonMobil supports a wide range of advanced programs to encourage young people to pursue careers in mathematics and science. [www.exxonmobil.com](http://www.exxonmobil.com)

**ExxonMobil**

Taking on the world's toughest energy challenges

**NUS**  
National University  
of Singapore

We thank Cheong Loong Fah, Tan Guek Chuan and David Tan for their photographs, Kelvin Lim for drawing the cartoon, Peter Ng, Joe Lin for his valuable advice, the Raffles Museum of Biodiversity Research, National University of Singapore for permission to photograph the natural animals. Last but not least we thank the staff of the Central Nature Reserves, National Parks Board for their support and encouragement.
