

*If we had a keen vision and
feeling of all ordinary human life,
it would be like hearing the grass grow and
the squirrel's heart beat,
and we should die of that roar which lies
on the other side of silence.*

George Eliot, in Middlemarch

INTRODUCTION

The Singapore Institute of Biology was founded in 1974 by an enthusiastic group of biologists who wanted to further the cause of Biology. It was officially registered on 10 February 1975 with the following objectives as stated in the constitution :

- To promote the advancement of biology and its applications.
- To encourage the improvement of education in biology and the training of those interested in biology.
- To advance the character and status of the profession in biology and its applications, and the interests of those engaged therein.
- To facilitate the exchange of information in biology and its applications through meetings, exhibitions, publications and other ways.
- To publicise and disseminate information about biology and its application and on matters concerning the profession.
- To secure and distribute grants and loans for education and research in biology and its application.
- To represent the opinion of the members of the Institute on matters related to the objectives of the Institute.
